

VALLEY CORF EARNS HIGH PRAISE

This is just what a few of our many satisfied patients say about Valley CORF:

"Needing both physical and respiratory therapy, I was truly impressed with the professional treatment I received in one handy location. Thanks to your therapy, I no longer require the use of oxygen when I sleep at night! You were all wonderful to work with, and I truly felt I was among people who cared."

J.W., 72 years of age, female

"When I first went to CORF, I was in a wheelchair and on oxygen 24 hours a day. In only a few treatments, I was up and walking, and within two months, I was completely off the oxygen."

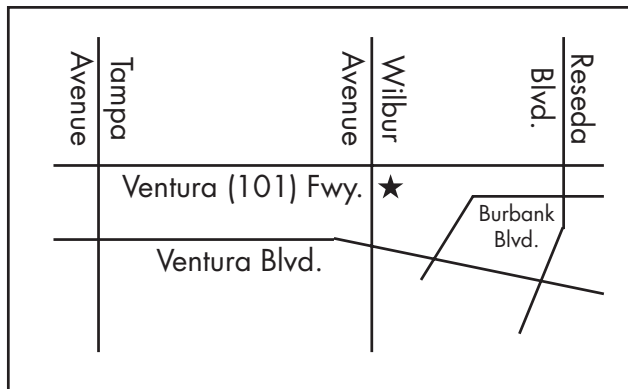

A.T., 62 years of age, female

"I was treated for Vertigo and severe dizziness. I found the therapist knowledgeable and extremely caring. The facility is immaculate and very well equipped."

A.W., 71 years of age, female

"Our group of pulmonologists has referred hundreds of COPD patients to Valley CORF. Their expertise and gentle care allowed the patents to feel better, improve their breathing and enhance their quality of life."
